

## **Class Cockpit - Parents' Information**

*Class cockpit* is a module system with a collection of exercises for the fields German and Mathematics. The assessment of the results is done via online-data bank.

---

*Class cockpit* is an aid used by teachers to define their position.

*Class cockpit* facilitates performance comparison *to other classes in the fields of German and Mathematics.*

*Class cockpit* modules give orientation on how to achieve certain learning objectives.

*Class cockpit* modules are given like other written class tests during the lesson.

*Class cockpit* modules can be used from the 3<sup>rd</sup> to the 6<sup>th</sup> school level, each one three times a year.

The results of several *class cockpit* modules will allow the teacher to make an assessment of the performance of his/her pupils.

*Class cockpit* modules are kept by the teacher and, at a parent-teacher meeting,

you can take a look at them.
